

Agencies Providing Services for Adults with Disabilities

The following is a list of agencies that provide services to adults, and in some cases children, with disabilities. Each agency has criteria that will determine whether or not a person is eligible for their services. This is different than services you are entitled to under Individuals with Disabilities Education Act, which end at age 21 or at High School Graduation. It is worth making a call if you think you may qualify for some of the services.
